LEDGIBLE
CRYPTO TAX PRO

Integrated **Crypto Tax Software**
for Professionals, by Professionals

Ledgible makes crypto, Legible. Streamline your crypto tax workflow with the only crypto tax platform designed for tax and accounting professionals. Firms can connect their client's portfolio, automatically calculate gain/loss, and properly report crypto transactions. Ledgible directly integrates with all leading professional tax software, providing automation of crypto activity in a structured traditional format, making it easier for firms to handle crypto reporting and expand their service offerings to provide crypto advisory, reporting, and tax planning.

Key features for Professionals
